# World of Protection upgrade announcement

Thank you for continuing to insure with OnePath Life. Your policy provides important protection which we are pleased to announce has been upgraded. Selected terms and conditions have been improved. Best of all, these improvements come at no extra cost to you.

This upgrade announcement updates your World of Protection Policy Terms.

## What do I need to do?

You do not need to do anything to take advantage of this automatic upgrade. However, we do recommend that you keep this document in a safe place with your Policy Terms or other insurance records.

Your policy will not be worse off as a result of the guaranteed upgrade. If you or a life insured is inadvertently disadvantaged in any way then previous benefit wording will stand.

## How do I read this upgrade announcement?

The improvements which apply to your policy will depend on the types of cover and options you have selected. Your latest Renewal Notice sets out the covers that apply to your policy, and will help you to understand which of the improvements are relevant to you. An improvement to a particular cover type only applies to you if the cover type or option being improved is already included in your policy.

Often the policy owner and the life insured are the same person. In the interests of clarity, any reference to 'you' in this upgrade announcement assumes that you are both the policy owner and the life insured.

## When do these improvements apply from?

The improvements presented in this upgrade announcement are effective from 20 May 2013.

They apply only to claims for events or conditions which first occur, are first diagnosed, or for which symptoms first became reasonably apparent, on or after the effective date of the improvement. They do not apply to past or current claims, or any claims arising from conditions which first occurred, or were first diagnosed, or for which symptoms first became reasonably apparent, before the effective date.

## Questions?

If you have any questions about the improvements outlined in this upgrade announcement, or require more information about your policy please contact your financial adviser or call Customer Services on 133 667.
